

# PAIRS FOR SITES/CREWS

This sheet is to be used to divide your group into pairs so that everyone is on a work site with at least one other person that they know. You know your teens better than we do, so this is very helpful information when we are creating our work crews. Please pair up everyone. We understand that sometimes there will be three to a group. This sheet is due with all other registration forms and must be postmarked by June 1. We cannot make changes on the day of registration, so please return this sheet with your other registration forms.

Please provide first and last names of each individual.
